**The Mindstream Project** - make a stop motion animation at the Animation Station, brought to you by the UM School of Art & Design. Dry-erase markers, a whiteboard and various objects for animating will be your tools. Whether it's political satire, random drawings, personal confession, or viral experimentation - bring your imagination and add your animation to the mindstream loop.

**Sounds of the State** - Michigan Radio is teaming up with the UM School of Art & Design to present these interactive sounds of Michigan - places, memories and experiences from all over the state. Stop by and listen, and find out how you can create your own. You can also play our interactive public radio news quiz, and meet your favorite Michigan Radio on-air hosts.

**Henna Tattoos** - Decorate your skin with a Henna Temporary Tattoo, an ancient body art from India.
